

The Department of Community Development collaboratively works with the community, Town Board and Planning Commissions to expand opportunities for residents and workers, guide current growth and development, and plan for Ledgeview's future.

The Department's four divisions share a common goal to provide oversight and technical assistance on town planning and development. A few of the primary responsibilities of each division are listed below, for a complete overview of services please visit each division's webpage.

[Building Inspection](#) – The Town of Ledgeview contracts building inspection services through eServices, LLC. The building inspector must be contacted in order to receive a building permit. To schedule an inspection, please call 920-493-2294 to start the process.

[Planning & Economic Development](#) – Community profile, business directory, business approval procedures, and links to business development tools and resources

[Zoning Administration & Code Enforcement](#) – Planning and zoning regulations, adopted plans and maps, development approval procedures, guidelines for applications, forms, and checklists.

Whether you're a resident, developer, business owner, or interested in joining our community, "set your sights high" and learn more about living and working in Ledgeview.
